------	-------------

**2.6 Biogeographical Region(s)**

Mediterranean (100.0  
%)

**3. ECOLOGICAL INFORMATION**

[Back to top](#)

**3.1 Habitat types present on the site and assessment for them**

Annex I Habitat types						Site assessment			
Code	PF	NP	Cover [ha]	Cave [number]	Data quality	A B C D	A B C		
						Representativity	Relative Surface	Conservation	Global
5330			233.22		M	B	C	B	B
6220			155.48		M	A	C	A	A
6310			466.45		M	B	C	B	B

- **PF:** for the habitat types that can have a non-priority as well as a priority form (6210, 7130, 9430) enter "X" in the column PF to indicate the priority form.
- **NP:** in case that a habitat type no longer exists in the site enter: x (optional)
- **Cover:** decimal values can be entered
- **Caves:** for habitat types 8310, 8330 (caves) enter the number of caves if estimated surface is not available.
- **Data quality:** G = 'Good' (e.g. based on surveys); M = 'Moderate' (e.g. based on partial data with some extrapolation); P = 'Poor' (e.g. rough estimation)

**3.2 Species referred to in Article 4 of Directive 2009/147/EC and listed in Annex II of Directive 92/43/EEC and site evaluation for them**

- **Group:** A = Amphibians, B = Birds, F = Fish, I = Invertebrates, M = Mammals, P = Plants, R = Reptiles
- **S:** in case that the data on species are sensitive and therefore have to be blocked for any public access enter: yes
- **NP:** in case that a species is no longer present in the site enter: x (optional)
- **Type:** p = permanent, r = reproducing, c = concentration, w = wintering (for plant and non-migratory species use permanent)
- **Unit:** i = individuals, p = pairs or other units according to the Standard list of population units and codes in accordance with Article 12 and 17 reporting (see [reference portal](#))
- **Abundance categories (Cat.):** C = common, R = rare, V = very rare, P = present - to fill if data are deficient (DD) or in addition to population size information
- **Data quality:** G = 'Good' (e.g. based on surveys); M = 'Moderate' (e.g. based on partial data with some extrapolation); P = 'Poor' (e.g. rough estimation); VP = 'Very poor' (use this category only, if not

even a rough estimation of the population size can be made, in this case the fields for population size can remain empty, but the field "Abundance categories" has to be filled in)

### 3.3 Other important species of flora and fauna (optional)

Species					Population in the site			Motivation						
Group	CODE	Scientific Name	S	NP	Size		Unit	Cat.	Species Annex		Other categories			
					Min	Max		C R V P	IV	V	A	B	C	D
B	A028	<a href="#">Ardea cinerea</a>						P						X
R	2431	<a href="#">Psammodromus hispanicus</a>						P			X			

- **Group:** A = Amphibians, B = Birds, F = Fish, Fu = Fungi, I = Invertebrates, L = Lichens, M = Mammals, P = Plants, R = Reptiles
- **CODE:** for Birds, Annex IV and V species the code as provided in the reference portal should be used in addition to the scientific name
- **S:** in case that the data on species are sensitive and therefore have to be blocked for any public access enter: yes
- **NP:** in case that a species is no longer present in the site enter: x (optional)
- **Unit:** i = individuals, p = pairs or other units according to the standard list of population units and codes in accordance with Article 12 and 17 reporting, (see [reference portal](#))
- **Cat.:** Abundance categories: C = common, R = rare, V = very rare, P = present
- **Motivation categories:** IV, V: Annex Species (Habitats Directive), A: National Red List data; B: Endemics; C: International Conventions; D: other reasons

## 4. SITE DESCRIPTION

### 4.1 General site character

[Back to top](#)

Habitat class	% Cover
N06	8.0
N18	50.0
N08	25.0
N09	17.0
<b>Total Habitat Cover</b>	<b>100</b>

### Other Site Characteristics

ZEPA situada en el centro de la provincia de Cáceres, en la comarca de Cáceres, entre las poblaciones de Talaván, Hinojal y Santiago del Campo. Se trata de una zona pseudoesteparia, dentro de la cual se encuentra el embalse de Talaván. Esta combinación hace de la zona un lugar de importancia, tanto para las aves esteparias, como acuáticas.

### 4.2 Quality and importance

Esta ZEPA tiene dos hábitats diferenciados claramente, pero en muchos casos complementarios, como son las zonas abiertas pseudoesteparias y las aguas de interior correspondientes al embalse de Talaván, embalse con pequeñas zonas con presencia de vegetación de orla en los bordes del embalse. En este enclave se han detectado al menos 30 especies incluidas en el Anexo I de la Directiva Aves, destacando entre las esteparias el núcleo reproductor de avutarda, junto a la presencia de sisón, ortega, ganga, alcaraván, las tres especies de aguilucho, cernícalo primilla, así como una buena representación de aláudidos. A estas hay que sumar la importante población de aves acuáticas que utilizan el embalse de Talaván en los distintos periodos del año, destacando el importante dormidero de grullas localizado en las aguas someras del embalse y que se alimentan en los pastizales y dehesas cercanos, la invernada de anátidas, la presencia de calamón durante el periodo reproductor, o la de especies sensibles como la

espátula, el avetoro, el avetorillo o el fumarel común durante los periodos migratorios. Además, un total de 5 elementos referidos en la Directiva Hábitat se encuentran representados en dicho enclave. De ellos 3 son hábitats: retamares, majadales y dehesas, y 2 se corresponden con taxones del Anexo II: nutria y galápagoleproso.

#### 4.3 Threats, pressures and activities with impacts on the site

The most important impacts and activities with high effect on the site

Negative Impacts			
Rank	Threats and pressures [code]	Pollution (optional) [code]	inside/outside [i o b]
L	G01		i
H	A02		i
H	A05.01		i
L	B02.01		i

Positive Impacts			
Rank	Activities, management [code]	Pollution (optional) [code]	inside/outside [i o b]
L	X		i

Rank: H = high, M = medium, L = low

Pollution: N = Nitrogen input, P = Phosphor/Phosphate input, A = Acid input/acidification,

T = toxic inorganic chemicals, O = toxic organic chemicals, X = Mixed pollutions

i = inside, o = outside, b = both
