A1.3: Mapping territorial authorities' management capacities and needs related to the design and implementation of IAS policy measures

JUNTA DE EXTREMADURA

Consejería para la Transición Ecológica y Sostenibilidad

Scope and context

- **Description:** Survey with territorial authorities' representatives to identify public administrations' needs concerning the design and implementation of IAS related policies.
- **Policy purpose:** Enable public authorities to comprehend the challenges and organisational limitations associated with the implementation of policy measures on the prevention, early detection, and management/control of invasive alien species.
- The **methodology report (initial output)** will provide the approach and data collection tools to exchange experiences on public administrations' organizational needs.
- **Final output:** Common analysis on the organisational and implementation needs of territorial authorities.

Links with other project activities

A1.3: Mapping territorial authorities' management capacities and needs related to the design and implementation of IAS policy measures

A2.1: Regional stakeholders meetings

A5.1: Joint development of action plans

What is a needs analysis?

“Needs analysis is a systematic process for determining a public administration’s organisational and implementation needs towards accomplishing a goal (e.g. IAS management).

It allows to flag up the strengths (capacities), weaknesses and gaps in existing processes, resources and arrangements that may affect the design and successful implementation of policy measures and interventions.

Needs analysis can be an effective tool to reveal the challenges and obstacles in the way to achieve a defined objective and highlight appropriate interventions and solutions.”

Organisational and implementation needs (examples)

Establishment of a dedicated IAS department

Integrated planning and collaboration among departments

Funding instruments

Monitoring and management instruments

Capacity building mechanisms (competent staff)

Data and equipment availability

Synergies with environmental agencies & professional associations

Research approach

Research method: Field research

Data collection tool: Online questionnaire (powered by EU survey) / personal or phone interviews

Target group: Public administrations

Geographical coverage: Partnership territories

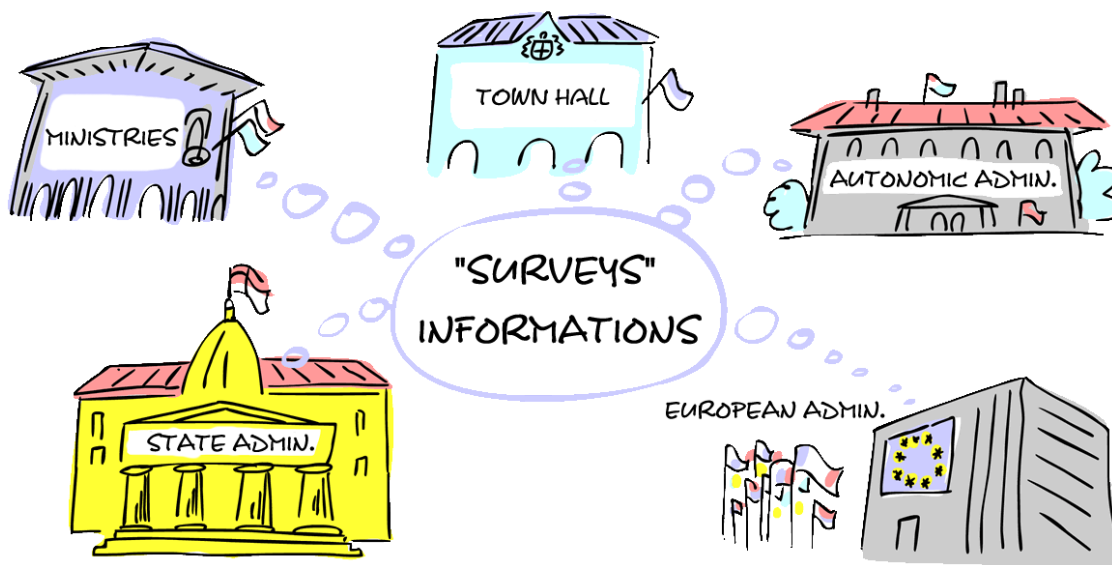

Data processing & analysis: Quantitative and qualitative analysis

The methodology report will define:

- Survey objectives and research questions
- Research approach (i.e. field research)
- Data collection tools (online questionnaire/ interviews)
- Target population
- Criteria for data collection (quality specifications)
- Data collection targets per partners (KPIs)
- Time-plan

Data Analysis

TIMELINE

Step 1: Survey methodology with tools (September 2019)

EXTREMADURA provides a survey methodology and research tools to partners to collect data.

Step 2: Data Collection (October-November 2019)

All partners will fill-in the survey and promote it to relevant public administrations in own territory.

Step 3: Final Report (delivery date: 31 January 2020)

EXTREMADURA will use the data collected and will develop an analysis report on the organisational and implementation needs of INVALIS territorial authorities.

PURPOSE.-

The survey aims to collect information regarding the current organizational capacity and future needs of INVALIS territorial authorities to effectively design and implement IAS policies and measures.

It addresses the following question:

What is the current organisational capacity of INVALIS territorial authorities in designing and implementing IAS measures in light of their needs to effectively design and implement IAS measures?

VALUE

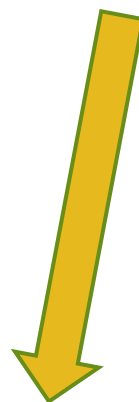

- 1) Strongly disagree..... 1**
- 2) Disagree 2**
- 3) Neutral 3**
- 4) Agree 4**
- 5) Strongly agree 5**
- 6) Not sure not applicable**
- 7) Not applicable Not applicable**

TO WHOM IS THIS QUESTIONNAIRE ADDRESSED ?

*** The questionnaire is addressed to two distinct types of organisations:**

GROUP 1) INVALIS PROJECT PARTNERS

GROUP 2) EXTERNAL ACTORS TO THE
PROJECT PARTNERS

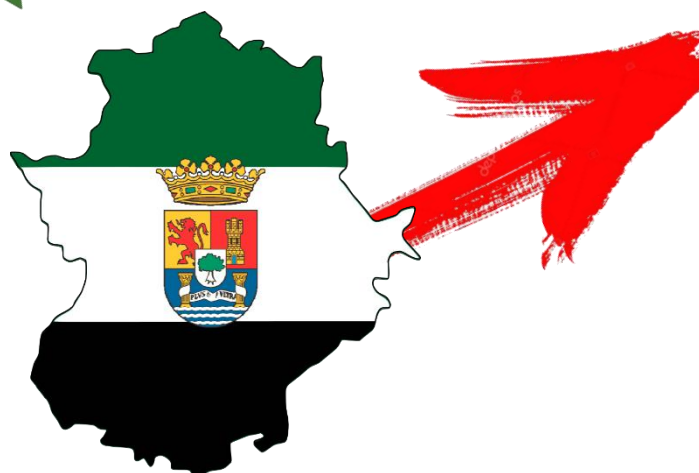

| Group 1 | | | |
|--------------|---------------------------|---------------------|-------------|
| Partner | INVALIDIS project partner | Responses (minimum) | Recommended |
| NCESD | ✓ | 4 | 8 |
| FLA | ✓ | | |
| EXTREMADURA | ✓ | | |
| OEC | ✓ | | |
| ADR-BI | ✓ | | |
| ICETA | ✓ | | |
| ZPR | ✓ | | |
| TOTAL | 7 | 28 | 56 |

| Group 2 | | | |
|--------------|--|-------------------------------|-------------------------------|
| Partner | Other organisations from INVALIDIS territories | Responses (minimum) | Recommended |
| NCESD | 2 (from each partner's territory) | 2 (from each organisation) | 4 (from each organisation) |
| FLA | | | |
| EXTREMADURA | | | |
| OEC | | | |
| ADR-BI | | | |
| ICETA | | | |
| ZPR | | | |
| TOTAL | 14 | 28 | 56 |
